An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following is an examiner's statement of reasons for allowance: The best prior art made of record, namely the Lee reference (5,115,816), did not teach or render obvious a plunger control adaptor or syringe attachment for retrofit attachment to a syringe that included all of the limitations as recited in claims 1 and 11, especially the limitation of "a slide member having a first lower surface that slidably engages a first upper surface of said barrel and a second upper surface that supports a finger or a thumb".
